WORK EXPERIENCE

Software/Cloud Developer
Global Technology Solutions Inc.

05/2023 - Present   *Grand Junction, Colorado (Remote)*
IT Services and IT Consulting
Achievements/Tasks

- Extensive work with AWS APIs such as amazon-connect-streams to develop an Agent Desktop in ReactJs
- Worked with libraries and frameworks such as React, Angular, and Redux to create rich visual applications to be used by agents and supervisors
- Responsible for relations with customers, management of time, and architecture of applications with projects I am working on

Contact : Micheal Tacker - 970-201-9412

Software/Cloud Developer
Aspen Technologies LLC

05/2021 - 05/2023   *Grand Junction, Colorado (Hybrid)*
Cloud Consulting and Automation Company
Achievements/Tasks

- Used ReactJs to help deliver interactive agent desktop apps that allows for agents and supervisors to more efficiently monitor and manage call centers from one app
- Created rich real-time and historical metrics that allowed clients to better visualize and monitor solutions after their deployment
- Gave demos and negotiated with clients to establish requirements and desired outcomes for projects
- Helped lead and delegate work to a team of 10 junior developers using Trello and Jira and guided them to develop a good foundation in AWS Cloud Development and general best practices for DevOps

Contact : Dax Hurley - 970-201-2270

Software Developer
Tata Consultancy Services

08/2020 - 05/2021   *Grand Junction, Colorado (Remote)*
Multinational Information Technology Services and Consulting Company
Achievements/Tasks

- Developed fullstack apps using AngularJs frontends and Java SpringBoot backends coupled Apache Tomcat servers
- Efficiently self-managed project tasks while at working remotely from home
- Coordinated with groups of 5 to 10 people remotely and to complete projects and deliver products to the client
